

DXC Assure Commercial and Specialty

Achieve high-value interactions to enable seamless packaging of business functions, microservices, intelligent analytics and personalization for key industry personas.

For commercial and specialty insurers, there's a new market landscape

Commercial and specialty insurers and managing general agents (MGAs) of all sizes and in all regions require solutions that make them nimble, adaptable, customer-focused, and able to embrace and leverage an ever-changing technology landscape.

DXC Assure Commercial and Specialty meets these needs, providing an integrated, cloud-enabled, API and

microservice best-of-breed ecosystem approach to delivering services across the end-to-end insurance life cycle.

Deployed on the DXC Assure Digital Platform, the solution combines customer engagement, self-service, digital business services and analytics, a high degree of no-code configurability, and embedded AI to drive automation and operational efficiencies. In addition, DXC Assure Commercial and Specialty aligns with the Blueprint Two digital transformation journey for the London Market.

Key benefits

- An integrated, cloud-enabled, API and microservice best-of-breed ecosystem approach
- Runs a single-instance solution across multiple markets and locations with full multinational support
- Deliver services across the end-to-end insurance life cycle
- Customize the core solution to meet your needs
- API-enabled across all business functions

DXC Assure Commercial and Specialty provides an integrated, cloud-enabled, API and microservice best-of-breed ecosystem approach to delivering services across the end-to-end insurance life cycle.

In action

Working with DXC Technology, customers leverage the latest in modular technology — powering better decision making and lowering expense ratios. Customers share a common core solution that allows them to take advantage of DXC's strategic roadmap, technology investments and AI Everywhere approach.

Features

Single-platform capabilities. With DXC Assure Commercial and Specialty, customers can run a single-instance solution across multiple markets and locations with full multinational support. This benefits the Lloyd's syndicates, global carriers and MGAs writing hundreds of products in all specialty markets.

Speed to market. The built-in product configurator enables coverages, limits, rules, documents and commissions to be defined once to drive highly automated policy and claims administration. As circumstances change, updates can be made quickly and effectively so opportunities can be seized and maximized.

Configurability at your fingertips.

Customizable through configuration to meet your specific needs, the core solution is supported by a roadmap with quarterly enhancement releases, separate from your own tailoring.

World-class connectivity. The solution is API-enabled across all business functions, delivering the business and technical agility demanded in today's digital era. The solution leverages global messaging capability provided by ACORD, which underpins electronic communication between carriers and brokers, improving communications efficiency.

Why DXC?

DXC is the #1 provider of core insurance systems, serving over 1,900 customers — 80 percent of whom are in the Fortune Global 500. DXC brings more than 40 years of industry domain knowledge and experience in enabling customers to modernize their technology estates while building new digital capabilities.

Capabilities

- Customer relationship management
- Policy administration
- Product configuration
- Billing
- Claims
- Reinsurance
- Finance and credit control
- Work queue task management
- REST API and integration framework

“Legacy-free technology is fundamental to Mosaic's model, and our collaboration with DXC represents the first insurtech operating platform of its kind. We believe it gives us a tremendous advantage.”
